

A GLANCE AT THE SERVICE ACTIVITIES OF HH SRI SWAMIJI'S MISSION

The Divine Mission is surely purposeful when one recognises society as a form of God. Primary importance is given to serve Him through the society. One who refuses to serve a living being that is struggling to survive, how come one feel the Divinity and serve the immovable deity form?

Serving society with real concern to human values, in tune with ever inspiring spiritual values is a great gift one is blessed with !

Serving the deserving sufferers irrespective of any bars like religion, caste or race makes the activity an unbiased service. But, these days, as shown in T.V. channels, some anti elements and some big organisations started to lure people with money etc., and they are offering help only if people get converted. This is just exploiting poverty and ignorance of suffering people and use it for their selfish advantage. The sad part is, if people do not accept to get converted, such organisations never hesitate to ignore the sufferers, because their motive is different !! This is where the True serving organisations and benefit craving organisations working under the guise of ' service ' can be distinguished.

In the last many years, many traditional Christians and Muslims took part, joining their hands with the volunteers of the service wing Vikasatarangani, during various programmes conducted by HH Sri Chinna Jeeyar Swamiji. It is not surprising to say that even many atheists were moved at heart by the motivation, discipline and dedication of the spirit of volunteers serving during all the activities conducted by HH Sri Chinna Jeeyar Swamiji. Thus, they too took active part in many programmes supporting the service activities of Sri Swamiji. The Divine mission of service from Sri Chinna Jeeyar Swamiji is beyond religion, race, caste etc.

Social services, traditional services and other services conducted under the aegis of HH Sri Chinna Jeeyar Swamiji, to explain, may require a series of several volumes like encyclopaedia britannica !!
