

SWAMIJI SPEAKS...

*Priya Bhagavad Bandhus !*

**MANGALASASANAMS**

Response from the concerned hearts itself is a great reliever of pain ! World responded to help the Tsunami victims. The need of the hour is to contribute generously to bring them back to normal life. Boats, engines and nets are runners for these fishermen.

Since Gujarat earthquake to recent Tsunami, we can observe that thousands of human beings only were killed but not any animals. Animals know the responses of nature well in advance and they move to safe places. The Pride human being, neglects it and suffers.

Now, these victims need to begin a living under a secure shelter. Physically the house they live in is the shelter and morally the faith they believe in, is the shelter. Some organisations, taking advantage of the necessity of the victims, tried to shatter their faith by showing physical comforts, wealth lured them for conversion, but, these people are highly committed to their belief and faith !! This is something surprising, in the days when people at the apex of high honourable stage, supposed to be the protectors of faith and devotion, are easily getting trapped to the bait of those elements, these fishermen are so committed to protect their faith even at the cost of their daily needs and heavy benefits. We were horripulated at their gesture ! They are the real devotees ! Serving such devotees shall please God.

That is an area called "Poompuhar" in Tamilnadu, which was severely damaged during Tsunami. When some organisations offered help only if they were converted to their religion, these fishermen families bluntly rejected conversion.

Infact, their devotion only made them lose the material help from those elements, but, these fishermen proved the respect they deserve, for, they gave priority to the faith they follow, over the wealth or facilities, eventhough offers came absolutely free, right to their door steps for conversion. So these fishermen are highly respectable people than those who sold out themselves and their faith just for money and comforts.

Our heart yearned to visit such noble souls. Hence, we visited the places. We took up the project of serving a little by constructing all 350 new houses for them. A place has been identified and work is in progress. Each house costs about \$2500 or Rs.1Lakh, which will be constructed in the name of the sponsorer. Already Hundreds of nets and boats, new clothes, reconditioned engines etc., were distributed along with utensils and food material, by our service team.

Many NGOs are doing different works in the affected areas where they have 2% to 40% administrative cuts from the collected donations and funds. However, in rendering our services, **administrative expenditure is ZERO** because, we want every penny to be spent for the purpose "only". It's proved when we constructed colony of houses in

Gujarat after recent Earth quake. We did so for constructing Tribal School in Allampalli. Now also it will be done in the same way and it is the JET's way !

JET assures always, "**Any Penny will be put in the service of the End User**".

After Dhanurmasam, we visited Adilabad district where more than 650 villages have joined together conducting Githa Jyothi programme since 2 years. Their dedication and commitment for Githa Jyothi is highly appreciated. Till now 63 Dharmakshethrams were completed.

On 19th Feb Bhi:shma E:ka:dasi day, Sri Vishnu Sahasranama Sthothra chanting for the sake of "World Peace" was organised at Guntur in which thousands of Bhagavad Bandhus participated. Let's join together, whenever, wherever we are, if possible with all our Bhagavad Bandhus, to chant this sthothra and offer it to Lord. God responds to sincere prayers, in His own style and process.

Till now no technology, helped us to overcome the Nature's unpredictable calamities. Human beings should not meddle with the laws of the Nature, but, try to understand them and help maintain the balance.

We propose a two stage programme to make this ' 25th year' bless many devotees in service of Lord with the grace of our Acharya ! The first one, we undertake a tour around India under banner of "Acharya Seva Yathra" reciting Sri Ramayanam of Valmiki, performing Homa and conduct discourses, for one year starting from 20-2-2005. The second one, we expect you to undertake writing "o:m namo: ve:nkate:sa:ya" spending atleast half-an-hour to two hours daily depending on your convenience, which has to be sent to us at then end of the year, whose names will be displayed during the year end celebration praying for the good of all. Further those who are interested can recite Sankshepa Ramayanam at their own place/public place and make the programme a grand offering to Lord. This will make a landmark to balance the nature and save people from future disasters, if any.

Many kind hearted have come forward to utilise their resources in the projects undertaken by JET and we offer our Mangalasanams to all o : opportunity for everyone to serve His noble cause in a grand n
